

Project name: WASIL

Explanation

Wasil is an innovative platform designed to connect creatives and learners across different fields, enabling them to exchange services and knowledge completely free of charge. The platform provides a collaborative environment where anyone can learn from others while also sharing their own expertise.

◆ Why Wasil?

- 100% free, with no fees or subscriptions.
- Facilitates collaboration between people from different tracks.
- Helps you gain practical experience and expand your network.
- Everyone can be both a “learner” in one track and a “mentor” in another.

◆ Examples of Tracks available:

- Programming & Development (Front-end, Back-end, Mobile Apps)
- UI/UX Design (User Interface, User Experience, Prototyping, Usability Testing)
- Graphic Design (Illustration, Branding, Motion Graphics)
- Digital Marketing (SEO, Social Media, Ads)
- 3D & Game Design
- Office & Productivity Skills (ICDL, Excel, PowerPoint)
- Other Creative & Technical Fields

◆ The Vision

Simply put, Wasil is the bridge that brings together creatives and learners, opening new opportunities for anyone who wants to improve their skills or support others in different fields.
